Acknowledgment

First and foremost, we would like to express our heartfelt gratitude to Almighty Allah for granting us the strength, knowledge, and perseverance to successfully complete this project. We are sincerely thankful to our respected teacher, Miss Arshia, for her constant guidance, encouragement, and valuable feedback throughout the development of our Car Listing Website. Her support played a crucial role in helping us understand the technical requirements and improve our skills, particularly in designing structured web pages, creating interactive user interfaces, and managing data effectively. We would also like to extend our appreciation to the E-Project team at Aptech Head Office for their valuable input and continuous support during this project. Their professional advice helped us align the website features with real-world expectations — including building a functional homepage, setting up well-organized menus like About Us, Brands, Range of Cars, PreOwned Cars, and Contact Us, and providing dynamic content for each section. Our heartfelt thanks also go to our parents and friends who encouraged us, provided feedback, and supported us in finalizing this project within the limited time frame. We truly hope that this website project serves its intended purpose, providing all the essential information users might seek about various car brands, models, and ranges. We warmly welcome any suggestions or feedback for further improvement.

E-CERTIFICATE

This is to certify that

Mr. RAYYAN AHMED,

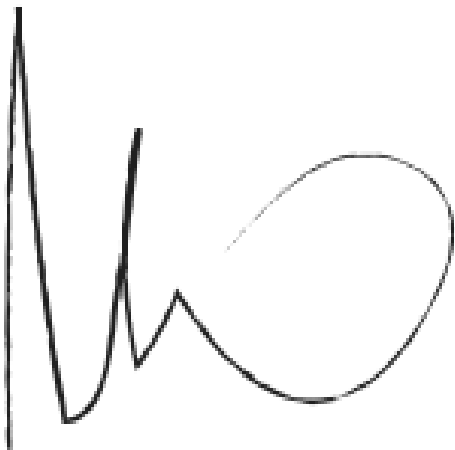

Mr. MUHAMMAD ZAYAN,

Mr. MUDASSIR AHMED

Mr. MUHAMMAD AZIM MEHMOOD

have successfully completed their ACCP Semester I
EProject.

Submitted to: Aptech Computer Education On
WEDNESDAY, APR, 09, 2025

A handwritten signature in black ink, consisting of a tall vertical stroke on the left, followed by a series of loops and curves that form a stylized 'M' or 'W' shape.

Introduction

The thirst for learning, upgrading technical skills and applying the concepts in real life environment at a fast pace is what the industry demands from IT professionals today. However busy work schedules, far-flung locations, unavailability of convenient time-slots pose as major barriers when it comes to applying the concepts in real life. And hence the need to look out for alternative means of implementation in the form of a ladder approach. The above truly pose as constraints especially for our students too! With their busy schedules, it is indeed difficult for our students to keep up with the genuine and constant need for integrated application which can be seen live especially so in the field of IT education where technology can change on the spur of a moment. Well, technology does come to our rescue at such times!! Keeping the above in mind and in tune with our constant endeavour to use Technology in our training model, we at Aptech have thought of revolutionizing the way our students learn and implement the concepts using tools themselves by providing a live and synchronous eProject learning environment!

What is This E-Project?

eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- o Practice step by step i.e. ladder approach.
- o Build a larger more robust application.
- o Usage of certain utilities in applications designed by user.
- o Single program to unified code leading to a complete application.
- o Learn implementation of concepts in a phased manner.
- o Enhance skills and add value.
- o Work on real life projects.
- o Give a real life scenario and help to create applications more complicated and useful.
- o Mentoring through email support.

The students at the centre are expected to complete this eProject and send complete project along with the documentation to eProjects Team

Looking forward to a positive response from your end!!

Objectives of the project

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application. The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools. You can revise the chapters before you start with the project. This project is meant for students who have completed the module of Dreamweaver. These programs should be done in the Lab sessions with assistance of the faculty if required. It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given. Kindly get back to eProjects Team in case of any doubts regarding the application or its objectives.

Problem Statement

The '**CARVAN**' is largest online car market. It caters to needs of everyone, be it a family, business or individuals. This initiative is aimed towards providing information and details about CAR's to buyers. The site provides details and specifications of various models offered by the companies. It also provide pictures and images to have a better look. 'CARVAN' is looking to restructure the entire website to provide information and also connect with prospective customers.

Requirement Specification:

The Web site is to be created based on the following requirements.

1) The Home Page should be created with proper sections, graphics and with a suitable logo

2) The site should display a menu with following categories:

About Us

Brands

Range of Cars

PreOwned Cars

Contact Us

3) 'Brands' should contains details about various brands/companies and sub-menu with Car Models for each brand/company should be provided.

4) 'Range of Cars' menu option should provide details in terms of 'Small Car', 'SEDAN', 'VAN', 'JEEPS' etc.

5) 'PreOwned' menu option should provide details about the characters in the parks and a small story should be associated to them.

6) 'About Us' should provide details of the company and past and upcoming events.

7) There should be a “Contact Us” page which will have the Address of the Company which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email.

ABOUT US

Welcome to **CARVAN**, the largest and most trusted online car marketplace in the region. Our mission is to connect people with their perfect vehicles – whether you're an individual, a family, or a business.

At CARVAN, we understand that buying a car is more than just a transaction – it's an experience. That's why we're dedicated to offering comprehensive information on a wide range of car brands, models, and categories. From sleek sedans and compact hatchbacks to rugged jeeps and spacious vans, we've got it all.

We not only provide detailed specifications and comparisons but also include high-quality images to help you visualize your next ride. Our goal is to empower our visitors with the information they need to make the best purchasing decisions.

OUR JOURNEY & UPCOMING EVENTS

Since our inception in 2020, CARVAN has grown exponentially, serving thousands of happy car buyers and sellers across the country.

Past Event: "AutoFest 2024" – A grand automobile expo held in Lahore, showcasing new launches and used car auctions.

Upcoming Event: "Drive Into the Future 2025" – A hybrid event in Karachi featuring EVs, car technology innovations, and special deals on pre-owned vehicles.

About Us

We are the leading marketplace for buying and selling cars. Find your next car or sell your current vehicle with ease!
